

EIT Manufacturing MatchMaking Event

29 and 30 April 2024

Opening session

Caroline Viarouge
CEO at EIT Manufacturing

29 April

Co-funded by the
European Union

eitmanufacturing.eu

Five main challenges have been identified that threaten the manufacturing industry

Skill gaps

Lack of diversity

Linear production models

High GHG emissions

Insufficient resilience

EIT Manufacturing is supporting ecosystem to build this future-proof industry

Our mission

Connect manufacturing players by promoting talent and entrepreneurship to accelerate sustainable innovation in Europe.

Delivered through education and training, innovation and business creation.

Our strategic objectives

1. Put people at the centre of manufacturing innovation
2. Accelerate green manufacturing
3. Foster sovereignty and competitiveness

We stimulate innovation and support our unique ecosystem

01

Broadening network
and collaboration

02

Boosting viable
innovation

03

Expanding skills
and competences

04

Accelerating
sustainable growth

We focus on five key themes impacting our industry

AI & data

Enhance competitiveness thanks to smart automation and virtualisation

Industrial Metaverse

Accelerate the setup of production lines or the training of operators

Circular economy

Unlock new business models addressing resource scarcity and environmental challenges

Net Zero industry

Achieve emission reduction targets through innovative solutions

Renewable energy

Local grid integration to limit fluctuating energy prices and stay competitive

Thank you!
