

EIT Manufacturing MatchMaking Event

29 and 30 April 2024

Innovation

Xavier BAILLARD

Director Inno2Market

EIT Manufacturing

eitmanufacturing.eu

Co-funded by the
European Union

Innovation CfP 2025 - Scope

Foster innovation within the manufacturing sector by **addressing pressing industrial challenges** and facilitating a transition towards **more resilient, sustainable, and human-centered manufacturing**.

Short Term

Bring innovations to the market

Medium-Long Term

Put people at the centre of manufacturing

Accelerate green manufacturing

Foster sovereignty and competitiveness

Innovation CfP2025

2 Call Topics

Project Duration: 12 months

Total funding available for the call: 11M€

Funding Rates: 70%. Max funding 0.7M€ for Topic 1, 1M€ for Topic 2

Consortium:

At least one business owner

At least 2 industrial end-users

Technology Readiness Level: start from 7, finish at 8 or higher

Mandatory KPI: EITHE02.4 → Innovation introduced on the market with 10k€ of documented revenues.

Financial Sustainability: Service Agreement with fixed payment + revenue share.

Innovation CfP 2025 - Topics

Topic 1: Innovative Solution for Industrial Challenges

Tackle critical industrial challenges, demonstrating a clear understanding of the issue and proposing a scalable and impactful solution.

Each proposal must focus on one of the listed challenges :

- Integration of Complex Systems
- Energy Cost Management
- Implementing Circularity in Manufacturing
- Data-Driven Product Development
- Decision-Making Support for Complex Machinery & Value Chain

Topic 2: Transition towards a resilient and human-centered Manufacturing

Ambitious solutions to support Europe's manufacturing capability in facing global supply chain challenges and to ensure that the sector advances in harmony with social sustainability goals.

Each proposal must focus on one of following sub-areas:

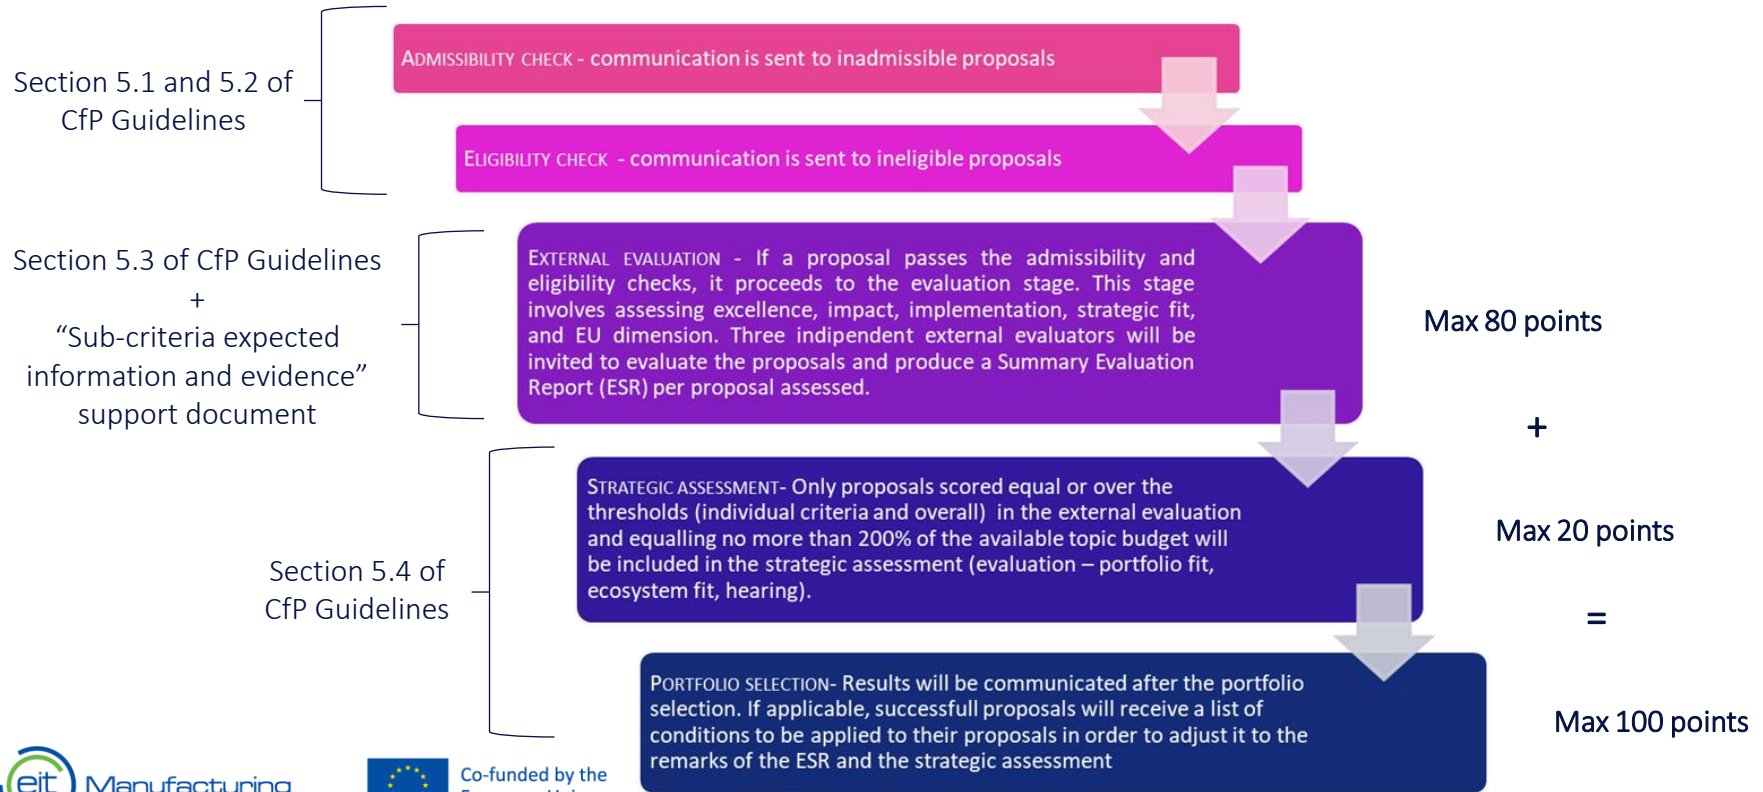

- Resilience and Resource Availability
- Human-Centric Manufacturing Innovations

Innovation CfP 2025 – Business Plan

- ✓ **Mandatory attachment:** template available on the call webpage, max 15 pages.
- ✓ **Living document:** awarded proposals will update the BP during the project implementation (replacing the old Commercialisation Plan).
- ✓ **Evaluation:** used by external experts to assess the economic sustainability of the solution and impact potential of it.

Innovation CfP 2025 - Evaluation

Thank you!
