Timely received proposals submitted by the tenderers will be examined, evaluated, and compared in accordance with the following criteria and the contract shall be awarded to the highest-ranked tenderer. **The proposals must address directly the requirements.**

An Evaluation Committee of at least 3 people will be established. Each bid will be evaluated and ranked according to the criteria above.

The compliance with the principles of transparency, non-discrimination, equal treatment, and absence of conflict of interest will be ensured.

The successful and unsuccessful tenderers will be informed in writing (via email) about the result of the award procedure. In case the winning tenderer is unable to enter the contract, EIT Manufacturing may decide to contract the supplier receiving the second highest ranking.

Upon request from the tenderer concerned, EIT Manufacturing will as quickly as possible, and in any event within 15 calendar days from receipt of a written request, inform:

- any unsuccessful candidate of the reasons for the rejection of its request to participate,
- any unsuccessful tenderer of the reasons for the rejection of its tender, including, if this is the case, its decision that the works, supplies or services do not meet the performance or functional requirements,
- any tenderer that has made an admissible tender of the characteristics and relative advantages of the tender selected as well as the name of the successful tenderer or the parties to the awarded contract,
- any tenderer that has made an admissible tender of the conduct and progress of negotiations and dialogue with tenderers.

Should there be a suspicion that the provider will not be able to perform according to the price offered, EIT Manufacturing has the right to ask for explanations and may reject the tender where the evidence supplied does not satisfactorily account for the low level of price or cost proposed.

### Complementary Note on the Evaluation Process:

After the initial evaluation of submitted proposals, it is possible that the potential top-ranked suppliers may be shortlisted for participation in a Pitch Session or in a set of interviews. It is important to emphasize that the evaluation will be conducted in strict accordance with the criteria outlined in the published Request for Proposal (RfP).

The primary objective of the Pitch Session or Interviews is to facilitate a deeper understanding of the received proposals, provide an opportunity to elaborate on specific details, and allow the EIT Manufacturing to get to know the team of professionals better. During this session, the shortlisted suppliers will have the chance to present their

proposals, clarify any questions, and discuss how your firm can best meet the legal consulting needs of EIT Manufacturing.

Further details regarding the Pitch Session or Interviews, including dates and logistics, will be communicated to the shortlisted suppliers following the initial evaluation of proposals.

## 5. Complaint procedure

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint. Appeals shall be addressed to EIT Manufacturing **only** via the following email address [procurement@eitmanufacturing.eu](mailto:procurement@eitmanufacturing.eu). The tenderers have **5 (five)** days to file their complaints from the date of receipt of notification of the results.

In your application to EIT Manufacturing the complainant shall explain what procedural aspects they consider having been violated along with any recommendations or remarks. Such charges need to be supported with data and facts and, if possible, – documentation. An appeal whose sole purpose is to obtain a second evaluation for no reason other than that the complainant disagrees with the final award decision is to be rejected.

## 6. Negotiations & Clarifications

Negotiations can be held in the following cases:

- if it is identified that the scope of services issued by EIT Manufacturing is not detailed enough, incomplete or some areas are lacking crucial information to complete the procedure for direct awards;
- if EIT Manufacturing has the intention to reduce the offered prices to find the best value for money;
- if all submitted prices are above the planned budget and it is everyone's interest to finish the procedure with success – in that case, price negotiation can take place. During a price negotiation, all tenderers are called to lower their prices by the same deadline in a written form.

EIT Manufacturing can organize as many rounds of negotiation as it is needed during the procedure in order to reach the highest quality of proposals and the best price.

Whenever possible, the negotiations should be carried out in writing, however, in special cases, video conference or even live negotiation can be organized. EIT Manufacturing also reserves the right to invite the tenderers to an individual meeting before the final award of contract in order to clarify details and ambiguities.

In case of obvious or perceived errors or omissions in the RfP, Tenderers can request additional information or clarifications by the deadline provided in the above timeframe through email at [procurement@eitmanufacturing.eu](mailto:procurement@eitmanufacturing.eu).

Upon receipt of the bids, they will be reviewed, and additional details will be requested from the tenderers as needed. The requests as well as the answers are to be submitted written by e-mail. Where information or documentation to be submitted by tenderers is incomplete or erroneous or where specific documents are missing, EIT Manufacturing staff may request the party concerned to submit, supplement, clarify or complete the relevant information or documentation within 3 day(s).

Bid preparation costs are not reimbursable and must be borne by the tenderers.

EIT Manufacturing owns all bids received in this RFP. Proprietary information of vendors in the bids will be kept strictly confidential. The offers as well as the contract may be submitted for audits.

The winning supplier will be sent the contract to be signed (indicating the deadline by which the signed contract should be returned to EIT Manufacturing).

The invoicing will be based on a mutually agreed schedule; it will be detailed in the contract signed.

The tenderer agrees that the total value of the contract to be signed with EIT Manufacturing for the mentioned period will in no way exceed the bid (the amount contained in the offer) of the tenderer. The contract will be awarded for a maximum period required **for the completion of the services with the possibility of renewal.**

The awarded supplier will be requested to sign Standard Contractual Clauses (SCC) if no other GDPR compliant safeguards exist, and the supplier is located in a country for which the EU Commission has not issued an adequacy decision.
